AA/24/002

Question for the Parish Council:

Regarding the Housing Requirement from Chichester District is 25 on top of the original 11 or are the original 11 included?

The original 11 are added to the 25 allocation representing a total number off potential houses of 36.

Do the Parish have no say regarding the sites chosen for development?

The sites will arise through the normal planning process and the

Parish Council can comment on applications as they arise as can all residents.

A resident in the audience asked all attendees if they had seen Swifts or Hedgehogs in the Parish and no one had seen any.

The formal meeting closed at 8.45pm and all attendees remained for refreshments and conversation.
