Ref 8088 ~ Quotation for tree surgery required at the above address

Dear Catherine

Further to our recent meeting, please find below details of the tree surgery work required:

T1 Sessile oak adjacent to play area:

- Prune 1 x longest branch heading north over the playground by c.4m – c.7m
 - Current branch length 19.0m
 - Finished branch length 15.0m – 12.0m
- Please note, the suitability of the subordinate branches at c.15m – 12m will dictate the final point of pruning

Waste material:

- Chip and clear all rubbish generated

Sub-total: £325.00
Vat @ 20% £ 65.00
Total: £390.00

We will also need to check that there are no Tree Preservation Orders (TPO) or Conservation Area (CA) constraints on these trees before work can commence. If there are constraints, then I would be happy to make the application or notification on your behalf; but we do not guarantee the work will be approved. This service is free if you proceed with the work however if the contract is withdrawn or the application goes to appeal, then a charge of £70 (plus VAT) is issued to cover the administration costs.

Please make sure that the above specification is correct for your needs, and that you fully understand the terms and descriptions of work. Please also take time to read the company terms and conditions. If you would like any clarification please call or email, as changing the specification on the day we complete the work is not ideal for you or us.
