a) Neighbourhood Plan (NP):

Recommendation: To note any update regarding the NP process.

RESOLVED as noted that Regulation 16 may commence at the end of November 2026.

b) Loxwood Parish Regulation 14 Neighbourhood Plan Consultation.

RESOLVED to send in the following comments.

- Support maintaining a clear separation between settlements of Ifold and Loxwood. The proposed inclusion of an area of Biodiversity Net Gain within the potential Development of Land at Loxwood Place (Page 37) is therefore essential. It should also be protected from development in perpetuity.

- On page 65 the Map showing the allocated land for development at Loxwood Place includes the area of BNG in allocated development area. There is a concern that this could be misinterpreted to mean that the land shown as BNG could be considered as allocated for development if the plans change after the outline planning phase. Consequently, showing clearly on the map that built development is not being considered for that land and that the BNG area is outside of the settlement boundary would be beneficial
- P&I PC are concur with the proposed restrictions on progression of future developments unless it can be demonstrated that the wastewater treatment capacity can be appropriately managed. This is similar to the Grampian condition which is in our draft NP plan.
